# PRESS RELEASE

Custom Molders Group LLC commits to ISO 9001 quality registration  
*Company is committed to establishing a world class quality system.*

**Somerville, April 29, 2011:** Custom Molders Group LLC announced today that it has committed to obtaining ISO-9001 quality certification of its Quality Management System by January, 2012.

ISO 9001 is the most popular international quality management standard in the world and was established by the [International Organization for Standardization](#) because it helps both product and service oriented organizations achieve standards of quality that are recognized and respected throughout the world.

"Custom Molders Group is committed to being the best custom plastics manufacturing partner possible for its clients and ISO 9001 certification is a critical component of that commitment" said Joseph Caro, President and Chief Executive Officer of Custom Molders Group.

"We are great at building reliability, repeatability and consistency into everything we do. ISO 9001 will further enhance our strengths because it brings together a quality attitude with the right policies, procedures, records, technologies, resources and structures," noted Caro.

The company has selected [STR-Registrar, LLC](#) as its auditor and is scheduled for its Stage #1 audit on December 5<sup>th</sup>, 2011. The Stage #2 certification audit is scheduled for mid-late January 2012.

Headquartered in Somerville NJ, Custom Molders Group provides custom manufactured plastic injection molded and injection-stretch blow molded products for mid-size to large clients in industries ranging from food packaging to healthcare to consumer products and more.
